LETTER OF INTENT

FROM MADAM JESS, PRODUCER

The Fetish Content Festival began as a promotional concept for the Atlanta Dungeon Sisterhood to showcase their content work and connect with new audiences in an era of online censorship and shadow banning. Since that time, the urgent need to find alternative solutions to marketing and advertising on social media and other online platforms has grown as the war against adult content gains momentum. As our first amendment rights dwindle and real discriminatory consequences increase, the time is NOW to find new and creative ways to resist, continue, and thrive. We will not be silenced!

As an artist, a fetishist, and longtime kinkster, I am committed to fighting for my right and yours to self-expression. Art reflects life and uncomfortable art provokes thought and encourages growth. I came here to be provocative and to invite you to grow with me.
